The Cooperative Institute for Marine and Atmospheric Studies (CIMAS) of the University of Miami, Rosenstiel School of Marine and Atmospheric Science, invites applications for a Research Associate II position in Physical Oceanography. The research is concerned with observational studies designed to improve our understanding of interannual to multidecadal ocean variability. The research will involve close collaboration with scientists at RSMAS and the NOAA Atlantic Oceanographic and Meteorological Laboratory (AOML).

The incumbent will be responsible for the processing, analysis, management, and distribution of oceanographic and meteorological data. The incumbent will assist scientists, engineers, and technicians in the evaluation of all related instruments and systems as required by scientific programs. The incumbent will help with the production of data reports and scientific manuscripts as required.

Required education is a Bachelors degree in physical oceanography, mathematics, physics, computer science, environmental science, engineering, or related field. The incumbent must be willing and physically able to participate in oceanographic research cruises and work productively in a shipboard research environment. At least two years of work experience is needed with two high-level languages (Java, Matlab, C++, FORTRAN), a high-level computer environment (UNIX, LINUX), basic mechanical and electrical knowledge and skills, and data base management and administration. Apply online at: www.miami.edu/careers. Curriculum Vitae, college transcripts, and the contact information for 3 people who can provide letters of recommendation are required. Position #047938

The University of Miami offers competitive salaries and a comprehensive benefits package including medical and dental benefits, tuition remission, vacation, paid holidays and much more. The University of Miami is an Equal Opportunity/Affirmative Action Employer.
